Both large-format plotters and small-format printers are available for self-service use 24-7. These plotters and color printers are located at the east end of the third floor, the west end of the fourth floor, and within the DPC as well. In addition, there are six black-and-white laser printers distributed throughout the studios and the Fab Lab.

Instructions for Use of Large-Format Self-Service Plotters
Instructions for Use of Small-Format Self-Service Printers
Full-Service Printing: Digital Print Center Located in room 309 of the Art + Architecture Building, the Digital Print Center (DPC) offers full-service large format printing. The DPC is generally open during normal business hours on weekdays and on Sunday afternoons as well. Check hours posted at the door. How to Print in the DPC: Create a proper PDF file for printing as per the instructions in PDF Workshop below. Come by the DPC and fill out a work order to get your print job added to the queue. Please allow one full business day between print job submission and print pickup. Payment for prints is due via VolCard at time of pickup. Q2. You want to add some stars to the circular background object in the image below, using a scatter brush. How can you ensure that the stars appear only inside the circle? Q3. Why would you use the Save Selection command? Q4. Which action closes a path when you are actively drawing with the Pen tool? Q5. Which effect was used to give depth to the outline of California below? A map of California has a light beige main color and a small dark shadow. Q6. When multiple objects are selected, how do you deselect just one of them? Q7. You need to change the fill color of all the info circles in the map below. The circles were not created from a symbol. Other than Global Edit, which command would help you accomplish this task efficiently? A map of Southern California includes many info circles shaded in light blue. Q8. How can you reverse the direction of all the arrows on the spiral in the image below? A red lines spirals clockwise in, towards the center. Arrows along the line point in that direction. Q9. What would you do to the left anchor point to make the object symmetrical? Q10. When do you use the Knife tool? Q11. You have a full-color RGB document and you need to create a grayscale version that will print only on the black plate. How can you accomplish this? Q12. You have been working in the Essentials workspace and have changed the arrangement of panels, closing some that were open by default and opening others from the Window menu. How can you get back to the default arrangement of panels? Q13. Your boss likes the new logo you've designed but would like to see some variations using different color schemes. Which feature could you use to generate these variations quickly? Q14. What is the fastest and most efficient way to ensure that all the objects shown in the figure below are placed precisely next to one another with no space between them? Q15. You select a new color in the Color Picker and want to see several variations in different shades and tints. Which feature allows you to do this? Q16. What is the purpose of the Make Pixel Perfect command? Q17. You have just one object on your artboard. You want to change its fill color from black to yellow, so you open the Color Picker and select a yellow color. But when you click OK, the fill of the object changes to gray, not yellow. Why is this happening? Q18. How can you ensure that proper nouns are not hyphenated in the document you're working on? Q19. How could you quickly change all the hexagons to triangles in the image below? Q20. You're working with a pen tablet and find that using the Ellipse, Rectangle, and Polygon tools to create objects is somewhat awkward. Which tool would allow you to draw, move, and edit these shapes with intuitive gestures? Q21. When using the Live Paint Bucket tool to fill artwork with colors, you are unable to fill some areas due to the size of gaps between paths. What can you do in the Gap Options dialog box to fix this problem? Q22. You often use brushes from the Pattern Arrows brush library. How can you make it so this library automatically opens when you start Illustrator? Q23. In the image below, you are attempting to use the Join tool to remove the overlapping portions of two paths (highlighted in yellow), but nothing seems to be happening. Why is this? Q24. Which colorization method should you choose when using an art, scatter, or pattern brush to apply a spot color? Q25. You have drawn a five-pointed star in a design and want to change the inner radius. How would you achieve this? Q26. What is the meaning of the three dots on the cloud icon in the image below? Q27. What command would you apply to make objects beneath the selected artwork visible inside the circle? A yellow rectangle has a circular selection in the center. Q28. The Symbol Sprayer tool has been used to apply a number of symbol instances to an illustration. You would like to modify the appearance of some instances using graphic styles. How would this be achieved? Q29. What happens when you click an existing anchor point with the Pen tool? Reference Q30. When creating a mesh object, when should you use the Mesh tool instead of the Create Gradient Mesh command in the Object menu? Q31. When viewing the artwork shown below in Outline mode, what can you tell about the word "backpack"? Q32. You would like the columns in a chart to cover the whole length of the category axis. What option would you choose? Q33. If you are looking for a tool in the toolbar and it is not visible, what should you do? Q34. The four flowers shown in the image below were created by applying an art brush to paths of different lengths. How can you prevent the distortion seen in flowers 2, 3, and 4 while keeping the size of the leaves and the width of the stem the same in all the flowers? Q35. When printing an image with many out-of-gamut colors, which rendering intent would you choose to best preserve the visual relationship between colors—not the specific color values? Q36. Why would you use change the Expand Mesh value when using the Puppet Warp tool? Q37. When using the Image Trace feature, which option has the most impact on the number of paths that are created in the tracing result? Q38. If you want to create an image map, which panel would you use to make an object into a clickable region? Q39. Why use the Simplify command before exporting a web graphic to SVG format? Q40. You have designed the product label shown below. Your client wants the black circle to print as dark as possible and requires that none of the colorful logo elements show through the circle when the label is printed. What should you do? Q41. You are working with an Illustrator file that includes a linked Photoshop file. Your client sends a new Photoshop file with a different name and asks you to replace the old one in the Illustrator file. Which command in the Links panel would you use to accomplish this? Q42. The fill colors of several instances of a dynamic symbol have been modified. What is the fastest way to return the fill color in every instance to its original appearance? Q43. In the gift card shown below, the magenta flower petals need to be printed with a varnish. How would you set up the file so the varnish is applied over the magenta color of the petals? Q44. Your client likes the pattern fill in the text below but wants the flowers to overlap more so there are smaller gaps. How could you accomplish that? Q45. Why would you turn on the Ignore Artboards option in the Print dialog box? Q46. You need to process a large batch of Illustrator files, applying the same sequence of transformations to each one. What is the most efficient way to do this? Q47. Why would you choose Enable Guides for 9-slice scaling when creating a symbol? Q48. What can you do in order to edit text in just one placed instance of a symbol? Q49. Your colleague has asked you to provide the CS5 code for an object in your document. What must you do to make Illustrator auto-generate the code for that particular object? Q50. You have drawn objects on planes using the perspective grid, but now want to change the angles of the grid to new vanishing points and have the artwork update automatically. What option should be enabled to achieve this result? Q51. What happens when you assign a different color profile to an image? Q52. Which image adjustment is not available as an adjustment layer? Q53. The Illustrator tool which is shown as a white arrow is known as the ____ Q54. Which of the following correctly defines the method by which Adobe Illustrator creates images. Q55. Adobe Illustrator terminology for drawn line is ____ Q56. Which of the following does the Paragraph menu not operate? Q57. Which of the following tools will cut a path into two different paths. Q58. The two overlapping boxes at the bottom of the Adobe Illustrator toolbox control ____ Q59. A curve created in Adobe Illustrator is commonly referred to as ____ Q60. Which of the following is not a benefit of using layers? Q61. The Pathfinder tool Q62. Selected tools from the toolbox will remain selected Q63. In Adobe illustrator we create our design and Illustrator on ____ Q64. How many types of pages orientation is in Adobe Illustrator? Q65. Shortcut of Selection tool in Adobe Illustrator is ____ Q66. Why does the top point of this star appear different from the other points? Q67. When creating a new color swatch, how can you ensure that the appearance of objects colored with that swatch will update if you edit the swatch at a later time? Q68. Which statement is true about working in Isolation mode? Q69. When saving a file in Adobe Illustrator (AI) format, which setting is essential to ensure that someone using Acrobat Reader can open and view the file? Q70. Drop shadows in a printed document appear pixelated. Which feature can you use to fix this? Q71. Where can you find information about an image's author and copyright status? Q72. What can happen if you don't add bleed to a print document? Q73. How can you ensure that objects on a specific layer remain visible on screen in Illustrator but never appear when the file is printed? Make artwork nonprintable Q74. If you had to send a file to a colleague, how could you collect everything needed to work on it, including any non-Adobe fonts and linked images? Share artwork Q75. When working with a two-point perspective grid, which setting in the Define Perspective Grid dialog box do you use to change the size of grid cells so you can draw and move objects with more precision? Q76. Which option do you use to create the stroke shown below?
